THE U. S. ROYAL CORD
A famous tire—and a famous tread.
Acknowledged among motorists and
dealers alike as the world's foremost
example of Cord tire building. Al-
ways delivering the same repeated
economy, tire after tire, and season
after season.
The stripe around the sidewall is
registered as a trade-mark in the U. S.
Patent Office.

How you can measure tire value in 1921 —

OFTEN it's surprising the number
of different tire views that come
out in a chance talk at the curb or in
the leisure of a friend's garage.

Almost every day you come
across the man human enough
to believe he can outguess
the cut-price tag on "job-
lots," "discontinued lines" and
"surplus stocks."

His opposite is the hard-
pan car owner who sticks
year in and year out to a
standard brand as the only
rational economy.

Many will remember the scarcity
of U. S. Tires last year.

A hardship at the time, but a bene-
fit now. There are no U. S. Tires to be
worked off—no accumulations—no
forced selling of any U. S. brand—no
shipping of tires from one part of the

country to another to "find a market."

There are 92 U. S. Factory Branches.
Each one gets its share of U. S. Tires.
There is a broad, constant, even dis-
tribution of U. S. Tires always going
on from these Branches to the dealer.

Buy a U. S. Tire anywhere
—in a community of 500 people
or even less—and you get a
fresh, live tire of current
production—with all the origi-
nal service and mileage the
factory put into it.

The owner of a medium or
light-weight car stands on
equal ground with every other
car owner.

Any United States Tire is a uni-
versal full money's worth—backed up
with a leadership policy of equal
quality, buying convenience and price
for everybody.

"The different
tire views that
come out in a
chance talk."
